FOI Request regarding Parking Revenues and Costs, Bus Lane Infringements and other Decriminalised Moving Traffic Offences

Dear Sirs,

I wish to obtain the details of the income and expenditure from parking charges, and associated penalty charges (including decriminalised moving traffic offences), and the costs associated with those including all administration and enforcement costs for your borough. Please consider this a request under the Freedom of Information Act.

Could someone in the council please supply that information in sufficient detail so that I get a clear picture of the sources of such revenue and to what they are applied for the financial year [2009/2010].

Ideally Revenue should be broken down as follows:

On-street Parking (meters, etc) Revenue, including bay suspension permits
On-street Enforcement Revenue
Permit Parking (CPZ schemes) Revenue
Off-street Parking Revenue (council owned/managed car parks)
Off-street Parking Enforcement Revenue
Bus Lane Enforcement Revenue
Other Decriminalised Moving Traffic Offences Revenue

Expenditure should be likewise categorized as follows (excluding capital items):

On-street Parking (meters, etc) costs
On-street Enforcement costs
Permit Parking (CPZ schemes) costs
Off-street Parking costs (council owned/managed car parks)
Off-street Parking Enforcement costs
Bus Lane Enforcement costs
Other Decriminalised Moving Traffic Offences Enforcement costs

If there are other sources of revenue, or of expenditure in relation to parking or traffic matters, please add those categories also.

In addition please provide a breakdown of where any surplus revenue over associated costs is applied to other expenditure such as traffic management, road safety schemes, concessionary fare schemes (Freedom Passes, etc) and any other expenditure.

If there is any capital expenditure (or amortization of that expenditure) in the data supplied, could that be clearly identified please as I am primarily interested in only the annual operating revenues and expenditure.

I do not mind receiving the information in a form that is not directly that requested so long as the information supplied does contain it somewhere or can be deduced from analysis of it. If this request is not clear, or you believe you do not have the information in a form that will assist me in understanding the council's income and expenditure in relation to these items, perhaps you could telephone me on the number below to discuss.

I am of course happy to receive any response via email to the address below.

Yours sincerely
